A new and terrifying dimension of the electronic age, cyber-crime is flourishing with no regard for national boundaries. This constantly evolving global phenomenon leaves law enforcement struggling to catch up. The culture of the Internet has led young people to idolize computer hackers and sometimes commit criminal acts. The motive of virus writers varies and organized crime has even gotten in on the action. The largely unchecked spread of cyber-crime has led to the creation of a global force to combat it. There are many losers in this dangerous game, and the stakes could not be higher. Each title in this series contains a foreword from the Chairman of the National Law Enforcement Association, color photos throughout, charts, and back matter including: an index, chronology, and further reading lists for books and internet resources. Key Icons appear throughout the books in this series in an effort to encourage library readers to build knowledge, gain awareness, explore possibilities and expand their viewpoints through our content rich non-fiction books. Key Icons in this series are as follows: Words to Understand are shown at the front of each chapter with definitions. These words are set in boldfaced type in that chapter, so that readers are able to reference back to the definitions--building their vocabulary and enhancing their reading comprehension. Sidebars are highlighted graphics with content rich material within that allows readers to build knowledge and broaden their perspectives by weaving together additional information to provide realistic and holistic perspectives. Text-Dependent Questions are placed at the end of each chapter. They challenge the readers comprehension of the chapter they have just read, while sending the reader back to the text for more careful attention to the evidence presented ther
