## International Encyclopedia of Systems and Cybernetics

This work gives, for the first time, a complete overview of the field of Systems and Cybernetics, as it developed from its beginnings more than 40 years ago up to date. It covers at the same time very general and well known basic concepts and much more information on the subject, until now scattered among hundreds of papers presented in international or national meetings, most of them completely out of reach of the majority of scholars. While redacted in English, it contains also a considerable store of valuable information gathered from sources in various other languages e.g. Dutch, French, German, Italian, Russian, Spanish, etc. The work contains nearly: 3,000 entries in alphabetical order A considerable quantity of verbatim quotes from hundreds of authors More than 1,200 specific references General information about Systems and Cybernetic Societies in the world Principal journals in the field
