Star Trails: Navajo

Don Childrey

Star Trails: Navajo Don Childrey

STAR TRAILS - Navajo sheds new light on the night sky by offering readers a different perspective from which to view the stars and constellations. The star lore of the Navajo people preserved the knowledge of the night sky discovered by their ancestors over countless centuries. These stories explained the importance of specific stars and groups of stars, the orderly movement of celestial bodies, and the chaotic placement of the multitude of other stars that decorate the heavens at night. STAR TRAILS - Navajo connects readers with the Navajo perspective by combining these stories with detailed star charts and viewing guides that can be used to locate the Navajo star figures in the sky.
