The River War Winston S. Churchill

This isn't just an account of the battles and the politics; it's the story of the destiny of the people of the region: Churchill with his powerful insight tells the the war changed the fates of England, Egypt, and the Arabian peoples in northeast Africa. (Jacketless library hardcover.) About the British attitude toward war: "There are many people in England, and perhaps elsewhere, who seem to be unable to contemplate military operations for clear political objects, unless they can cajole themselves into the belief that their enemy are utterly and hopelessly vile. To this end the Dervishes, from the Mahdi and the Khalifa downwards, have been loaded with every variety of abuse and charged with all conceivable crimes. This may be very comforting to philanthropic persons at home; but when an army in the field becomes imbued with the idea that the enemy are vermin who cumber the earth, instances of barbarity may easily be the outcome. This unmeasured condemnation is moreover as unjust as it is dangerous and unnecessary... We are told that the British and Egyptian armies entered Omdurman to free the people from the Khalifa's yoke. Never were rescuers more unwelcome."
