Frontiers in Offshore Geotechnics III

Frontiers in Offshore Geotechnics III

Frontiers in Offshore Geotechnics III comprises the contributions presented at the Third International Symposium on Frontiers in Offshore Geotechnics (ISFOG, Oslo, Norway, 10-12 June 2015), organised by the Norwegian Geotechnical Institute (NGI). The papers address current and emerging geotechnical engineering challenges facing those working in offshore construction, design and research. Keynote papers with authors from industry and academia describe the state-of-the-art in practice and theory, and a further 191 peer-reviewed papers describe emerging research, new design techniques and recent case studies related to the frontiers of offshore geotechnical engineering.

The themes of the papers include:

- Geohazards;
- Soil characterisation, modelling and testing techniques;
- Shallow, caisson and pile foundation technology;
- Anchoring solutions;
- Well, conductor and pipeline geotechnics;
- Jack-up unit spudcan behaviour, and;
- Reliability-based and performance-based geotechnical design.

New and existing design methods and industry best practices are presented together with innovative technologies and emerging research ideas derived from a variety of numerical and theoretical investigations, experimental programmes and field experience. Frontiers in Offshore Geotechnics III provides a comprehensive state-of-the-art reference for professionals and researchers in offshore, civil and maritime engineering and for soil mechanics specialists.

From reader reviews:

Lewis Lin:

Now a day people that Living in the era just where everything reachable by connect to the internet and the resources included can be true or not need people to be aware of each info they get. How a lot more to be smart in receiving any information nowadays? Of course the answer then is reading a book. Reading through a book can help folks out of this uncertainty Information specifically this Frontiers in Offshore Geotechnics III book because this book offers you rich information and knowledge. Of course the data in this book hundred % guarantees there is no doubt in it you know.

Leonard Palmer:

People live in this new day of lifestyle always aim to and must have the spare time or they will get lot of stress from both day to day life and work. So , if we ask do people have time, we will say absolutely indeed. People is human not really a huge robot. Then we inquire again, what kind of activity are you experiencing when the spare time coming to anyone of course your answer may unlimited right. Then ever try this one, reading guides. It can be your alternative with spending your spare time, the book you have read is definitely Frontiers in Offshore Geotechnics III.

Charles Stubblefield:

Are you kind of occupied person, only have 10 as well as 15 minute in your day time to upgrading your mind skill or thinking skill possibly analytical thinking? Then you are receiving problem with the book in comparison with can satisfy your short time to read it because all of this time you only find reserve that need more time to be read. Frontiers in Offshore Geotechnics III can be your answer as it can be read by anyone who have those short spare time problems.

Clifford Stoner:

That reserve can make you to feel relax. This kind of book Frontiers in Offshore Geotechnics III was multi-colored and of course has pictures around. As we know that book Frontiers in Offshore Geotechnics III has many kinds or style. Start from kids until youngsters. For example Naruto or Private investigator Conan you can read and think that you are the character on there. Therefore , not at all of book are generally make you bored, any it can make you feel happy, fun and rest. Try to choose the best book in your case and try to like reading this.
