## **You Are Not Your Brain: The 4-Step Solution for Changing Bad Habits, Ending Unhealthy Thinking, and Taking Control of Your Life** Rebecca Gladding M.D. M.D., Jeffrey M. Schwartz M.D.

A leading neuroplasticity researcher and the coauthor of the groundbreaking books *Brain Lock* and *The Mind and the Brain*, Jeffrey M. Schwartz has spent his career studying the structure and neuronal firing patterns of the human brain. He pioneered the first mindfulness-based treatment program for people suffering from obsessive-compulsive disorder, teaching patients how to achieve long-term relief from their compulsions. For the past six years, Schwartz has worked with psychiatrist Rebecca Gladding to refine a program that successfully explains how the brain works and why we often feel besieged by bad brain wiring. Just like the compulsions of OCD patients, they discovered that bad habits, social anxieties, self-deprecating thoughts, and compulsive overindulgence are all rooted in overactive brain circuits. The key to making life changes that you want-to making your brain work for you-is to consciously choose to starve these circuits of focused attention, thereby decreasing their influence and strength. In *You Are Not Your Brain*, Schwartz and Gladding carefully outline their program, showing listeners how to identify negative brain impulses, channel them through the power of focused attention, and ultimately lead more fulfilling and empowered lives.
