Astronomy Today (9th Edition) Eric Chaisson, Steve McMillan

For courses in Introductory Astronomy.

Connects introductory astronomy to a broad understanding of the universe

In this **Ninth Edition** of *Astronomy Today*, authors Eric Chaisson and Steve McMillan communicate their excitement about astronomy, combining up-to-date science with insightful pedagogy. The text emphasizes visualization, focusing on the process of scientific discovery in order to teach readers “how we know what we know.” Updated features in the **9th Edition**, Big Pictures and Big Questions, help readers connect the content of each chapter with a broader understanding of the universe while piquing interest in current research. New features within MasteringAstronomy bring these features together and allow readers to interact with astronomy outside of the classroom. The **9th Edition** has also been thoroughly updated and revised to reflect recent discoveries in the field of astronomy.

Also available with MasteringAstronomy™

MasteringAstronomy is the leading online homework, tutorial, and assessment system, designed to improve results by engaging students with powerful, interactive content. Instructors ensure students arrive ready to learn by assigning new Interactive pre-lecture videos that give students exposure to key concepts before class and open classroom time for active learning or deeper discussions of topics. With Learning Catalytics™ instructors can expand on key concepts and encourage student engagement during lecture through questions answered individually or in pairs and groups. Students further master concepts through book-specific MasteringAstronomy assignments, which provide hints and answer-specific feedback that build problem-solving skills. MasteringAstronomy now features Virtual Astronomy Labs, providing assignable online laboratory activities that use Stellarium and Interactive Figures.
