Planning and Analysis of Observational Studies (Wiley Series in Probability and Statistics)

William G. Cochran

Planning and Analysis of Observational Studies (Wiley Series in Probability and Statistics) William G. Cochran

Treats studies, primarily in human populations, that show casual effects of certain agents, procedures, treatment or programs. Deals with the difficulties that comparative observational studies have because of bias in their design and analysis. Systematically considers the many sources of bias and discusses how care in matching or adjustment of results can reduce the effects of bias in these investigations.
