Hong Kong in the Shadow of China: Living with the Leviathan Richard C. Bush

A close-up look at the struggle for democracy in Hong Kong.

Hong Kong in the Shadow of China is a reflection on the recent political turmoil in Hong Kong during which the Chinese government insisted on gradual movement toward electoral democracy and hundreds of thousands of protesters occupied major thoroughfares to push for full democracy. Fueling this struggle is deep public resentment over growing inequality and how the political system—established by China and dominated by the local business community—reinforces the divide between those who have profited immensely and those who struggle for such basics as housing.

Richard Bush, director of the Brookings Institution's Center on East Asia Policy Studies, takes us inside the demonstrations and the demands of the demonstrators and then pulls back to critically explore what Hong Kong and China must do to ensure both economic competitiveness and good governance and the implications of Hong Kong developments for United States policy.
