The popular belief that a scientific understanding of reality is incompatible with a Christian one is simply wrong. Some Christian understandings of reality do conflict with some scientific understandings. But a thoroughly rational Christian understanding of the origin and history of the universe will be informed by the best scientific theories and the "facts" founded on them. This book weaves a narrative of the origin and history of the universe from the perspective of contemporary science with a Christian understanding of God and of God's role in the origin and history of the universe. At the center of this integrated narrative is the view that God, who is pure, unbounded Love, is Creator: the zest for life in the universe comes from God, and God is the source of Truth, Beauty, and Goodness in the universe. God is amazed and delighted at what God-and-the-world has created; God is saddened by ways creatures have fallen short of pure, unbounded Love, Truth, Beauty, and Goodness; and God's pure, unbounded Love keeps on trying to persuade all creatures toward Truth, Beauty, and Goodness.
