Andrew Jackson

Mormonism Explained: What Latter-day Saints Teach and Practice Andrew Jackson

Sociologist Rodney Stark estimates that by 2080, Mormonism will have 267 million adherents. As a leading rival to biblical Christianity in both America and Latin America, it is a religion to be reckoned with. However, Mormons are not so much a group to be feared by Christians, says author Andrew Jackson, as a mission field to be cultivated.

As a professor and a pastor in a city that boasts a large LDS community, Jackson has had not only many discussions with Mormon neighbors but with current and ex-members from every level of the church hierarchy. These conversations have led him to study this religion and write this book.

His systematic, concise, and well-documented work offers an easy-reading explanation of Mormon teaching and practice today. This book is the first place readers will want to turn for a primer on Mormonism's origins and specific doctrines, and what Mormons believe and why.
