The Wages of Destruction: The Making and Breaking of the Nazi Economy

Adam Tooze

The Wages of Destruction: The Making and Breaking of the Nazi Economy Adam Tooze

In this groundbreaking new history, Adam Tooze provides the clearest picture to date of the Nazi war machine and its undoing. There was no aspect of Nazi power untouched by economics—it was Hitler's obsession and the reason the Nazis came to power in the first place. The Second World War was fought, in Hitler's view, to create a European empire strong enough to take on the United States. But as *The Wages of Destruction* makes clear, Hitler's armies were never powerful enough to beat either Britain or the Soviet Union—and Hitler never had a serious plan as to how he might defeat the United States. *The Wages of Destruction* is an eye-opening and controversial account that will challenge conventional interpretations of the period and will find an enthusiastic readership among fans of Ian Kershaw and Richard Evans.
