When life begun? Is the Darwinian theory the genesis of the human race ? and how life on planet Earth was initiated from an extraterrestrial race ? The Supersapiens is a meticulous research of the history of mankind based on FACTS, weaving together the Sumerian civilization, the Egyptian hieroglyphs, the Greek and Hindus mythology and the Maya cosmology. Those facts established the origin of life on planet Earth from a superior civilization that once inhabited PLANET MARS . Documentary evidence are depicted within the archeological sites around our planet . Life and death control our unconscious domain traveling into a different time zone and it is linked with the fecundation cycle , a cosmic phenomena known as the cult of the bull. The Supersapiens is the evidence of this extraterrestrial race that initiated the notion of the civilized man on planet Earth. The Supersapiens's eye is linked with the cosmos and the symbolic language of the gods. They still live within us.
